SUMMARY

Frontend Developer with 1.5+ years building scalable ERP modules and production-grade web apps using React.js, Next.js, and JavaScript. Skilled in reusable UI components, RESTful API integration, and responsive, performance-optimized interfaces. Expanding into Full Stack Development with Node.js, Express.js, and MongoDB.

TECHNICAL SKILLS

Languages: HTML/CSS, JavaScript

Technologies/Frameworks: ReactJS, NextJS, TailwindCSS, React Native, Redux-Toolkit, Node.js

Developer Tools: VS Code, Android Studio, Git and Github, Postman, React Developer Tools

EXPERIENCE

Frontend Developer | LNV Digital Systems | Mumbai, Maharashtra

March 2026 – Present

- Developed and maintained features for an existing application and a new cloud-based ERP product targeting the UAE market, leveraging React.js, Next.js, JavaScript, and Tailwind CSS, with RESTful API integration for seamless data flow.
- Implemented complex business logic and contributed to ERP mobile application development using React Native, building responsive UI screens and integrating RESTful APIs for real-time data handling, while collaborating with cross-functional Agile teams including backend developers, testers, designers, and product managers.
- Built a PDF report generation and automated email delivery system, developed complex customer distribution logic for a CRM application, and refactored code to meet evolving business requirements.

Frontend Developer Intern | LNV Digital Systems | Mumbai, Maharashtra

March 2026 – Present

- Built responsive UI components for a cloud-based ERP platform (UAE market) and an existing product using React.js, Next.js, and Tailwind CSS, while gaining hands-on experience with Redux Toolkit, Git/GitHub, and React Native to expand proficiency across the frontend and mobile development stack.

Frontend Developer Intern | Extraaaz Innovative Tech Solutions Pvt. Ltd | Mumbai, Maharashtra **March 2025 – July 2025**

- Independently built the company's website from scratch using React.js, Tailwind CSS, and Framer Motion for smooth animations and a polished, responsive interface, and implemented responsive design across various screen sizes for a Restaurant POS system using Laravel, PHP, Bootstrap, and React.

PROJECTS

Tic-Tac-Toe Game | Javascript, ReactJS, React Router, TailwindCSS

[GitHub](#)

[Live Demo](#)

- Enabled players to choose between "X" or "O" and select an opponent (player vs. player/player vs. computer)
- Managed game state to track turns, win/tie scores, Board Progress with LocalStorage for persistence across sessions.
- Designed an intuitive user interface that includes options to restart the game, quit the existing game, view winner announcements, and navigate back to the home page.

Cineworld Movie App | Javascript, TMDB Api, ReactJS, Redux, TailwindCSS

[GitHub](#)

[Live Demo](#)

- Developed Cineworld Movie App which enables users to explore search, and view movies and TV shows.
- Integrated the TMDB API to power an in-app trailer and related-clip playback feature for movies and TV shows, keeping the app's content library continuously up to date.
- Provided detailed information about Cast, Rating, Runtime, Release Date, recommendations, etc. while maintaining responsive design across different screen sizes.

Task Manager Application | Javascript, ReactJS, TailwindCSS, framer Motion

[GitHub](#)

[Live Demo](#)

- Developed a task management system with features such as adding, editing, deleting, searching, and sorting tasks.
- user can set and change priority levels (High, Medium, Low) of tasks with persistent storage using LocalStorage.
- Integrated Framer Motion animations to enhance visual appeal and maintained responsive design across different screen sizes for better user experience.

EDUCATION

Bachelors of Computer Applications | Bharati Vidyappeth Institute of Management, Kolhapur | 2021 - 2024

CERTIFICATIONS

Web Development | Academor
